

RURAL NORTH VACAVILLE WATER DISTRICT

November 2015 Newsletter

Water Rates

On August 14, 2015 the Board approved a reduction of the Tier 2 and Tier 3 rates to be the same amount as the Tier 1 rate; \$1.65/ccf (748 gallons) as explained in the prior September Newsletter. Those customers that use over 25 ccf per month should have noticed the savings these past few months. Originally the Board expected to review the Tier rates in November or December of this year but decided in August to make the rate uniform. The effect of the uniform rate applied in August is a reduction in revenue of approximately \$38,000 for the fiscal year, which was anticipated. Because of need to offset some of this lost revenue sooner than later, the Board has decided to consider for approval a proposed increase at the November Board meeting rather than as originally planned for the December Board meeting. The proposed rate increase is 35 cents per ccf from \$1.65 to \$2.00 a uniform flat rate for all tier usage. The proposed rate of \$2.00/ccf is in accordance with the table of water rates five year plan approved by the Board in June. For an average customer using 20ccf/month, this is a \$7.00/month increase. This revised rate will offset about half the lost revenue for the fiscal year and the budget will be balanced with the use of reserve funds if necessary.

Election for Board Members

The result of the Election for the three Board Directors is final. The Oath of Office will be administered to Don Pippo, Bob Whitehouse and Michael Bianco at the regular monthly board meeting on November 10, 2015 at 7:00 pm at 4135 Cantelow Road. Their 4 year term of office starts December 4, 2015.

Water Rights Buy/Sell

Our website has an information page so that existing customers looking to sell a water right and buyers looking to purchase a water right can contact each other. Upon request the District General Manager will also facilitate contact and communication between buyers and sellers of water rights.
