Rural North Vacaville Water District Survey October 11, 2023

468 surveys sent to District members and parcels within the District Sphere of Influence. 133 results 28.42% response.

Question: If you are a current customer of the District and are not using District water, do you expect that to change over the next 5 years?

Answers: Yes 14, No 62, N/A 77

Question: If you are a current customer of the District and using water only occasionally, do you expect that to change over the next 5 years?

Answers: Yes 16, No 69, N/A 48

Question: If you are a current customer of the District, do you anticipate the construction of a Secondary Dwelling Unit in the next 5 years to be built on your property?

Answers: Yes 16, No 106, N/A 11

Question: If you are a current customer of the District, and you have additional supplemental water rights, do you plan on subdivision of your property over the next 5 years?

Answers: Yes 6, No 52, N/A 75

Question: If you are NOT a current customer of the District, do you anticipate asking to join the water district and connect to the public water system in the next 5 years?

Answers: Yes 2, No 34, N/A 97

The survey results tend to indicate an insignificant change with the 10 year demand of metered water increases of 10% per fiscal year for the next 5 years.

Considering the 24 potential Yes answers to new connections, there would only be a 6% increase in active base accounts in the District over the next 5 years. It is very unlikely that this would impact the District's demand for additional water production.

Considering the 30 Yes answers to water usage change over the next 5 years, there could be an increase in potential meter usage of 7% of District members although this is an unknown factor.
