

RURAL NORTH VACAVILLE WATER DISTRICT

POLICY TITLE: Annexations
POLICY NUMBER: 5015
ADOPTED: 2-8-2022
REVISIONS: None

5015.1 It is the policy of the Rural North Vacaville Water District, RNVWD, to facilitate and support annexations to the Water District. It is the intention of the District to reach maximum capacity of five hundred and thirty three (533) customer connections.

Upon the District receiving a request for Annexation, the District Board of Directors shall, at a public meeting, vote on a RNVWD Resolution which requests Solano County LAFCO to process the application for Annexation.

Properties requesting Annexation are required to identify an available water right from the District owned inventory of District water rights, if any remaining, or from current customers with supplemental water rights for sale. Properties approved by LAFCO for annexation to the District must then purchase the water right.
